

Breathless Moments
Lyrics by: Charlene Sullivan
Music Composition by: Michelle Mackey
Suggested A-list Recording & Performing Artist: Taylor Swift

Verse 1

Breathless moments have been few.
Every one has been with you.

So many words unspoken.
You've got my heart, it's open.

Breathless moments, I'll always keep.
Love struck, now I can't sleep.

Feel it when our eyes meet.
Heart is pounding like a drum beat.

Chorus

I've never really been in love before.
Never been unable to breathe.

Now you've got me wanting, wanting more.
Baby, got the wind knocked out of me.

Got these goose bumps, head rush.
Our song is on repeat.

On the first sight, feeling so alive.
Heart is skipping, skipping beats.

I've never, ever, ever been in love before.
I've never, ever, ever been in love before.

Verse 2

Breathless moments and I can't move.
I know it's real with you.

Not about the years between us.
That's not the way I see us.

Breathless moments make me weak.
Baby, you can bring me to my knees.

We'll never get cold feet.
Heart is pounding like a drum beat.

Chorus

I've never really been in love before.
Never been unable to breathe.

Now you've got me wanting, wanting more.
Baby, got the wind knocked out of me.

Got these goose bumps, head rush.
Our song is on repeat.

On the first sight, feeling so alive.
Heart is skipping, skipping beats.

I've never, ever, ever been in love before.
I've never, ever, ever been in love before.

Bridge

Never been in love.
Never been in love.
Never been in love.
Never been in love.

Verse 3

Waiting for our moment to arrive.
Want you standing by, standing by my side, forever.

The moment when you say, I'm with you, don't be afraid.
Deep breath you take my hand, and you take my breath again.

Deep breath you take my hand.
And you take my breath again.

Bridge

Never been in love.
Never been in love.
Never been in love.
Never been in love.

Chorus

I've never really been in love before.
Never been unable to breathe.

Now you've got me wanting, wanting more.
Baby, got the wind knocked out of me.

Got these goose bumps, head rush.
Our song is on repeat.

On that first sight, feeling so alive.
Heart is skipping, skipping beats.

I've never, ever, ever been in love before.
Oh, I've never, ever, ever been in love before.
I've never, ever, ever been in love before.
I've never, ever, ever been in love before.

Love.
