**Chorus**

Darling, I have loved you  
In every imaginable way  
So many times I have tried to tell you  
What it means when I say  
Darling, I love you!  
Really means, I want you to stay not just for tonight, but for the rest of my life

**Verse 1**

I want you with me  
By my side, in everything I do  
Missing something special in my life  
Have figured out after all this time  
It's you who belongs in this home  
With me each day and every night

**Bridge**

The best thing I could hear is the door bell ring  
With you standing smiling back at me  
Make all of my dreams come true  
Baby, get on the next flight out  
I want to hear you driving up my hill  
Saying, I'm here, and I promise I'm staying for life

**Verse 2**

Welcome to my world  
Never drive away down our hill  
Stay forever, forever be my love  
Cause this is our life  
Togetherness is me and you happily ever after  
Will you stay with me only for tonight or for the rest of your life?

## **Chorus**

Darling, I have loved you  
In every imaginable way  
So many times I have tried to tell you  
What it means when I say  
Darling, I love you!  
Really means, I want you to stay not just for tonight, but for the rest of my life
