**Our Place**  
**Alternate Title: When you are here with me**  
**Suggested A-list Recording and Performing Artist(s):**  
**Celtic Woman, Barbara Streisand, Celine Dion, Lara Fabian,**  
**Katherine McPhee, or Laura Paulsini, etc.**

**Chorus**

When you are here with me  
The world looks so very differently  
There's a place where only you and I can go  
This place where our imaginations soar  
It's a place that only you and I could ever really know  
This place where only you and I can go

**Verse 1**

Is that place where we go  
The same place for you as me; Do you know?  
That place where I've only ever seen you  
A place where I feel safe and loved when I'm around you  
Do you feel safe when you're, there, in that place with me, here?  
Is Our Place the same loving place for you as it is for me?

**Chorus**

When you are here with me  
The world looks so very differently  
There's a place where only you and I can go  
This place where our imaginations soar  
It's a place that only you and I could ever really know  
This place where only you and I can go

**Bridge**

I'm lost without you by my side  
I'm here in the place, the only place, where I can hope to find, love  
There, in the place where you were always on my mind  
For me you were always someone, truly, real  
The one I felt came to, only, be with me  
Were you ever, here, were you ever, there, were you really ever in love with me?

## **Verse 2**

Is Our Place somewhere you still want to go?  
Is it me whom you still want to know?  
Was it me you fell in love with, back then, I still would like to know  
Do I stay, now, take a chance that it's you I'll find, here, that you'll promise me you'll  
never leave?  
When I look for love is it me whose on your mind?  
When you're here, in Our Place, then, I'll know you're really, truly mine.

## **Chorus**

When you are here with me  
The world looks so very differently  
There's a place where only you and I can go  
This place where our imaginations soar  
It's a place that only you and I could ever really know  
This place where only you and I can go

Our Place, the only place that only you and I can ever, truly, know
