Verse One

Since the day that we first met
You've captured my mind, and then my heart
I return asking what do you think?
Your kindness melts me, warming my heart, but
It's your intelligence that's left its' mark
You've taught me things I didn't even know about
It's difficult to know where I should even start
Feels like I'm grappling, now, stumbling in the dark

Chorus

After all that we've been through
I'm still in love with you
You're my rock, my sounding board, my life
More than a lover you're my best friend,
Body n' soul I swear that when
In heaven and on earth that I'll love you, and
In the afterlife I'll wait, there, for you
Then, we'll continue weaving our everlasting legacy of love
Where, we'll continue weaving our tapestry of life and love

Bridge

You're my soul mate, and
I want to live in love with you, forevermore
Now that there's a light at the end of the tunnel
I finally see where I am heading
Beginning a life with you that's what I want to do, and
Where I want to be is next to you
Creating a tapestry in life, leaving a legacy or two
An everlasting tapestry of life and love made by me just for you

Verse Two

From you, it's a convincing, resounding, yes!
Then, let's begin a journey to the end
Making music and love along the way
Each day will be a new memory, about which we may say
Every memory was made from love
Dancing to the rhythm of our heartbeats
Each memory we composed, musically, in melodic harmonies
Every melody will linger on in hearts and minds long after we have gone

Chorus

After all that we've been through
I'm still in love with you
You're my rock, my sounding board, my life
More than a lover you're my best friend,
Body n' soul I swear that when
In heaven and on earth that I'll love you, and
In the afterlife I'll wait, there, for you
Then, we'll continue weaving our everlasting legacy of love
Where, we'll continue weaving our tapestry of life and love
